Project 2 : Text Based Game
This project is due Oct. 25th

Description:

For this project, we will use HTML, CSS, and Javascript to make our very own text-based games. These will be uploaded to github and accessible on the web.

Grading:

%10 Outline sketch
%10 Final is available on the web
%20 A landing page indicates a clear and concise written description as well as visual style
%20 At least 5 pages long, with multiple possible endings and one
%20 User interaction, visual form, writing style, and content enrich each other
%20 Artistry
